We are Canada's Nurses

We are the voice of nearly 250,000 unionized nurses and nursing students across the country. We are proud to advocate for our members and promote the nursing profession on the national level, and we work tirelessly to protect the quality of health care for our patients and our universal public health care system.

Acknowledgement

From coast to coast to coast, we acknowledge the ancestral and unceded territory of all the Inuit, Métis and First Nations people that call this land home. The Canadian Federation of Nurses Unions is located on the traditional unceded territory of the Algonquin Anishnaabeg People. As settlers and visitors, we feel it's important to acknowledge the importance of these lands, which we each call home. We do this to reaffirm our commitment and responsibility in improving relationships between nations, to work towards healing the wounds of colonialism and to improving our own understanding of local Indigenous peoples and their cultures.

COMPARISON OF KEY NURSING CONTRACT PROVISIONS ACROSS CANADA

Introduction

Salary is often taken as the sole measure of the worth of an agreement. However, this can be greatly misleading, as many other elements in a collective agreement can dramatically impact the quality of nursing work. Typically, nurses unions in Canada have one agreement that represents the majority of nurses in the province (the provincial standard for the membership). The values for the comparisons come from these agreements. Efforts have been made to ensure that similar provisions are compared. However, some items do not have comparable provisions.

Unless otherwise noted, all information is based on a seven-and-three-quarter-hour shift (shift lengths vary across the country), i.e. not a twelve-hour shift. It is understood that nurses across the country work shifts of varying length. For the purpose of this document, to give a relative overview of contract clauses and salaries, it is easiest to limit information to the one shift. Also, information has been gathered from collective agreements that best represents agreements.

Please be advised that this document is only intended as a guide. Copies of collective agreements are available on the websites of most unions.

RATES EFFECTIVE AS OF NOVEMBER 1, 2023
